Introduction

This guide is intended to help BC Agents navigate the LDB product registration and activation process.

Below is an outline of the process from applying for an Agent License to Product Activation.

The estimated time from product registration to product activation (when you can begin selling your product) will generally be 2 to 4 weeks. Ensuring that your registration is complete and accurate will expedite this process.

Read This First

Agent & Supplier Authorization

Inside the agent package are two types of supplier authorization letters. One letter must be completed for each supplier you represent which will confirm payment terms and title to the product. A supplier authorization letter is required each time a new supplier is added to an agent's portfolio. Your product will not be approved for registration without a signed authorization letter.

LDB commits to protecting BC agents and their suppliers by requesting supporting documentation in instances where brand ownership, representation, or authorization is not clearly defined. LDB reserves the right to decline registrations for products when supplier authorization is not clearly documented.

Submit only one authorization letter per supplier.

1. Supplier Authorization Domestic Agent

- Title ownership = Supplier
- The LDB pays the agent OR supplier (depending on the agreement)
- The import supplier's Canadian GST number is requested

2. Supplier Authorization Distributor

- Title ownership = Agent
- The LDB pays the agent
- The agent's GST number is required

If you are a BC Agent representing Canadian out of province suppliers please refer to [Domestic Out of Province Suppliers](#) for more information

Barcodes

If your packaged product will be distributed by the LDB or sold to BC Liquor Stores, it requires a unique UPC (Universal Product Code – barcode on bottles) and SCC (Shipping Container Code – barcode on cases). UPC and SCC codes are non-transferrable.

Kegs do not require UPC and SCC codes as these are not distributed by the LDB

Product Type	UPC	SCC
Packaged product	Required	Required
Kegs	Not required	Not required

If the product you are registering does not require a UPC or SCC, press the space bar twice in the UPC and SCC fields.

If you do not have barcodes and wish to purchase them from the LDB, you may inquire at ldbprdata@bcldb.com. The current price as of this date's publication is 15 sets for \$50.

☐ **Canadian Federal Requirements for Labeling and Traceability**

The agent/supplier is responsible for ensuring labels meet [Canada Food Inspection Agency rules and regulations](#) and that products are in compliance with the [Food and Drugs Act](#). You may also find information in the [Consumer Packaging and Labelling Act and Regulations guideline](#).

The agent/supplier is responsible to ensure the product can be traced to the immediate customer and back to the immediate supplier. For more information on the traceability requirements, please refer to the [Regulatory requirements: Traceability](#) published by the Canadian Food Inspection Agency.

☐ **Social Responsibility**

Product approval is subject to compliance with the LDB's policy on Social Responsibility Criteria for Registration of Liquor Products. This policy can be found on the [LDB Vendor Website](#).

☐ **Valid container type**

It is very important that the correct container type is selected as it affects deposits and recycling fees. More information about container types can be found on page 21-22. If you are unsure, please contact a Vendor Relations Analyst.

As per the *Recycling Regulation of BC's Environmental Management Act*, all beverage alcohol must be sold in a container that can be refilled or recycled. Containers must be covered by a stewardship plan that has been approved by the BC Ministry of Environment. Please refer to page 21 for details.

☐ **Core Sizes for Spirits**

LDB follows the Core Size Agreement, developed in conjunction with the Canadian Association of Liquor Jurisdictions (CALJ) for the registration of distilled spirits.

Only standard core sizes may be registered for domestic and imported spirits and non-spirits which bear spirit names (e.g. wine based schnapps and wine based cream liqueurs).

Standard core sizes for distilled spirits less than three litres are:

- 50 ml
- 200 ml
- 375 ml
- 750 ml
- 1.14 litres
- 1.75 litres

Standard core sizes for Duty Free distilled spirits products are:

- 1 litre
- 1.5 litres

There are limited exception cases where small quantities of a non-standard bottle size may be approved for a registration. If an application for a non-core size spirit is cancelled, Agents/Suppliers may request an exception by email to the LDB Wholesale Operations Vendor Relations Analyst team at (ldbvendorhelp@bcldb.com). Please see our Core Size Policy posted on the Vendor Website.

☐ **Core Sizes for Wine**

Per CFIA, wine bottled after January 1, 1979 may only be sold in Canada in a container size that has a net quantity of product of 50, 100, 200, 250, 375, 500, or 750 millilitres or 1, 1.5, 2, 3 or 4 litres.

☐ **Wholesale Price**

The [Wholesale Pricing Guide for Vendors](#) is available on the Vendor Website on the Pricing Information page [Wholesale Pricing Information](#)

Refer to the [Wholesale Pricing Calculator](#) on page 29 for information on how to access and use the Wholesale Pricing Calculator. If you require assistance, you can contact Wholesale Pricing at 604.252.8701 or wholesalepricing@bcldb.com.

☐ **Product Classification**

Beer-based products may fall under the beer or refreshment beverage classification category. Please be aware that refreshment beverages have different markup rates and distribution rules than beer. The LDB may request product samples (at the agent's expense) for the purpose of classification and reserves the right to make the final determination of a product's classification.

□ Ways to Contact the Vendor Relations Team

Our business hours are Monday to Friday 8:00am to 4:00pm. We are closed on statutory holidays.

We can be reached by phone at 604-252-8700.

By email, the Vendor Relations team has 4 mailboxes to serve you.

Register Product

PROCEED TO REGISTER PRODUCT

Do you have all the necessary product information (e.g. UPC, brand name, size, display price)? Information that is required but not supplied correctly will result in a delay in processing your application. The LDB reserves the right to cancel your application at any time.

To start a new registration application for a product that has never been sold/listed in BC before, click on the "Proceed to Register Product" button below.

To resume a saved but unsubmitted registration application, click on the "Resume Existing Application" button below.

NOTE: A registration is not required if your product has been listed with the LDB in the past. If you are not sure, please call our Product Data Administration area (within Purchasing department). To change the listing status of an active product from restricted to general/specialty/conditional (for sale in government liquor stores), use the 'List Product' sub-tab above.

Click on Proceed to Register Product

Terms & Conditions

TERMS AND CONDITIONS OF REGISTRATION

1. The Registration Terms and Conditions apply to all product available and registered for sale in the Province including product which is listed for sale in Government Liquor Stores. Additional terms and conditions apply specifically to products listed for sale in Government Liquor Stores (see Listing Term and Conditions).

2. The submission by the Supplier of a Registration Application form ("Registration Application") constitutes a request by the Supplier for the Liquor Product eligible for sale in British Columbia. The Supplier agrees to accept the Terms and Conditions of Registration for the Liquor Product.

PRODUCT APPLICATIONS | REPORTS | NEWS & INFORMATION | RESOURCES | PRICING INFORMATION

To Do List | Search Applications

Product Registration Application Wizard

Welcome to the product registration wizard. Below is an overview of the registration application procedure. It takes approximately 15 minutes to complete and submit your registration application. Please ensure that you have all of the necessary product information as you must complete one step at a time.. At any time, you may save what you've entered and continue at a later date.

NOTE: A registration application can only be launched/opened from a PC-based computer at this time. MAC-based computer users may either submit a registration application on a PC-based computer or arrange with the LDB Portfolio Management area to submit the registration application on your behalf. We are working to resolve this issue and apologize for the inconvenience.

Registration Fields Explained

1

EMAIL ADDRESS

All email communication regarding the registration will be sent to the address provided here. We recommend a shared email address if possible.

2

SUPPLIER INFORMATION

The BCLDB supplier number is the four- or five-digit supplier number assigned to the supplier. If your supplier is new to LDB, a supplier number will be assigned. A signed Letter of Authorization must be on file for your registration to be approved.

Leave the Single Business Number (SBN) field blank.

Enter the supplier name and address. You can use the prefill button to quickly populate the supplier number and contact information from the last registration you submitted for the same supplier number.

3

AGENT INFORMATION

The BCLDB agent number is the four digit agent number assigned to your agency.

You can use the prefill button to quickly populate the agent number and contact information from the last registration you submitted.

If this registration is for...	Enter the following number in the Agent Information section...
An imported product	BCLDB agent number
Out of province wine or spirit	BCLDB supplier number
Out of province beer (private distribution)	BCLDB agent number
Out of province beer (LDB distribution)	BCLDB supplier number

If you are a BC Agent representing Canadian out of province suppliers please refer to [Domestic Out of Province Suppliers](#) for more information

4

BARCODES

If your packaged product will be distributed by the LDB or sold to BC Liquor Stores, it requires a unique UPC (Universal Product Code – barcode on bottles) and SCC (Shipping Container Code – barcode on cases). UPC and SCC codes are non-transferrable.

Kegs do not require UPC and SCC codes as these are not distributed by the LDB

Product Type	UPC	SCC
Packaged product	Required	Required
Kegs	Not required	Not required

If the product you are registering does not require a UPC or SCC, press the space bar twice in the UPC and SCC fields.

If you do not have barcodes and wish to purchase them from the LDB, you may inquire at ldbprdata@bclldb.com. The current price as of this date's publication is 15 sets for \$50.

5

PRODUCT NAME

Naming conventions vary based on product type. Basic rules for product names are as follows:

- All information should be in CAPITAL letters
- Insert spaces before and after the hyphen
- Do not include accents and symbols

Please refer to tables below for basic naming conventions.

WINE		
Product Type	Basic Naming Convention	Example
New World Wines (eg, North & South America, New Zealand, Australia)	GRAPE VARIETY (if stated on front label) or PROPRIETARY NAME (if no grape variety stated on front label) – PRODUCER + other key information (eg, special cuvee or vineyard name)	CHARDONNAY – AVERY VINEYARDS or BLACK LABEL – AVERY VINEYARDS
Old World Wines (Europe)	APPELLATION + (grape variety if stated on front label) – PRODUCER + other key information (eg, special cuvee) Do not include IGT, DOC, DOCG, AOC, etc in the brand name	COTES DE RHONE – AVERY VINEYARDS or BAROLO – AVERY VINEYARDS
Bordeaux	APPELLATION (region) - CHATEAU NAME + VINTAGE Do not include IGT, DOC, DOCG, AOC, etc in the brand name	SAUTERNES – CHATEAU LAFAURIE PEYRAGUEY 1997
Sparkling	PRODUCER – other key information (and/or GRAPE VARIETY for New World only) Do not include IGT, DOC, DOCG, AOC, etc in the brand name	TORRES FAMILY – ROSE (Old World) JACKSON HILLS – SPARKLING SHIRAZ (New World)

SPIRIT		
Product Type	Basic Naming Convention	Example
Spirits	BRAND NAME – PROPRIETARY NAME or STYLE + other key information stated on front label (eg, flavor)	AVERY DISTILLERY – VODKA (Domestic) or NICHOLSON – CITRON VODKA (Import)

BEER		
Product Type	Basic Naming Convention	Example
Beer in glass bottles	BREWERY NAME – BEER STYLE and/or PROPRIETARY NAME + other key information	ABC BREWERY – PALE ALE or ABC BREWERY – LIGHT PILSNER
Beer in cans > 400 ml	BREWERY NAME – BEER STYLE and/or PROPRIETARY NAME + other key information (include container type)	ABC BREWERY – PALE ALE TALL CAN
Beer in cans <= 400 ml	BREWERY NAME – BEER STYLE and/or PROPRIETARY NAME + other key information (include container type)	ABC BREWERY – PALE ALE CAN
Beer variety packs in cans	BREWERY NAME – BEER STYLE and/or PROPRIETARY NAME + other key information (include container type)	ABC BREWERY – SUMMER VARIETY PACK CAN
Beer variety packs in bottles	BREWERY NAME – BEER STYLE and/or PROPRIETARY NAME + other key information	ABC BREWERY – SUMMER VARIETY PACK
Kegs	BREWERY NAME – BEER STYLE and/or PROPRIETARY NAME + <size in litres> and container type	ABC BREWERY – PALE ALE 20L KEG

REFRESHMENT BEVERAGE		
Product Type	Basic Naming Convention	Example
Refreshment beverage in glass bottles	BRAND NAME or PRODUCER – PRODUCT STYLE and/or PROPRIETARY NAME + other key information	ABC BREWERY – HARD ROOT BEER (domestic) or AVERY VINEYARDS – SANGRIA (domestic) or JACKSON'S HARD ICED TEA (import)
Refreshment beverage in cans (any size)	BRAND NAME or PRODUCER – PRODUCT STYLE and/or PROPRIETARY NAME + other key information (include container type)	ABC BREWERY – HARD ROOT BEER CAN
Refreshment beverage variety packs in cans	BRAND NAME or PRODUCER – PRODUCT STYLE and/or PROPRIETARY NAME + other key information (include container type)	ABC BREWERY – SUMMER ROOT BEER VARIETY PACK CAN
Refreshment beverage variety packs in bottles	BRAND NAME or PRODUCER – PRODUCT STYLE and/or PROPRIETARY NAME + other key information	ABC BREWERY – SUMMER ROOT BEER VARIETY PACK
Kegs (cider only; coolers cannot be kegged)	BRAND NAME or PRODUCER – PRODUCT STYLE and/or PROPRIETARY NAME + <size in litres> and container type	AVERY VINEYARDS – APPLE CIDER 20L KEG (domestic) or JACKSON'S CIDER 20 L KEG (import)

6

CATEGORY / SUB CATEGORY / CLASS

Select the appropriate categories for the product you are registering from the drop down menus. Contact the Vendor Relations team if you require assistance.

REGION / SUB-REGION / FLAVOUR

Select the appropriate regions and flavor, if applicable.

7

PACKAGED/DRAUGHT (applicable for beer or cider only)

Select either Draught or Packaged.

- Select “Draught” if your beer or cider product is ≥ 18 litres.
- All other beer or cider products are packaged.

WINE COLOUR / GRAPE VARIETY (applicable for wine only)

Select from the drop down menu, if applicable

8

ALCOHOL VOLUME

Enter the alcohol volume for your product here. If your product is a variety pack, enter the average alcohol volume of all items in the pack.

Beer exceeding 11.9% ABV is subject to a higher Canada Revenue Agency excise rate and may be subject to higher markup.

9

BASE MATERIALS

This mandatory information is used to determine the classification of your product.

Enter the base materials of your product.

Please note: LDB Wholesale may request samples for tasting analysis. The LDB reserves the right to categorize products for registration.

10

VARIETY PACK

This check box only applies to beer.

Check this box if your product is a beer variety pack, mixed pack, or sampler pack of products. Variety packs must contain products in the same category and container type. For example, a variety pack cannot contain both wine and beer products, or contain beer in both glass and aluminum containers.

You must list the individual selections/SKUs contained in the variety pack and their individual alcohol contents in the comments section of the form.

CLASSIFICATION OF MALT-BASED LIQUOR PRODUCTS

Based on the Criteria for Classifying Malt-Based Liquor Product policy released in December of 2016, you must confirm that your beer contains the four base materials required. You must also declare if there is any carbohydrate matter, artificial, or novel sweeteners in your beer.

You can find this policy on the [LDB Vendor Website](#).

Please note: LDB Wholesale may request samples for tasting analysis. The LDB reserves the right to categorize products for registration.

If your product is a beer you will need to select attributes from the drop down menus. (This section will not appear on the registration form if your product is a variety pack beer or a non-beer product)

Beer Type *	Select Description... ▼	?
Beer Style *	Select Description... ▼	?
Beer Body *	Select Description... ▼	?
Beer Primary Flavour *	Select Description... ▼	?
Beer Secondary Flavour	Select Description... ▼	?

11

PRODUCT ORIGIN / BOTTLING POINT / EXPORT

Select the product origin, bottling point, and export information from the drop-down menus.

12

PRODUCT CONTAINER TYPE

It is very important that the correct container type is selected as it affects deposits, recycling fees, and wholesale pricing.

As per the *Recycling Regulation of BC's Environmental Management Act*, all beverage alcohol must be sold in a container that can be refilled or recycled. Containers must be covered by a stewardship plan that has been approved by the BC Ministry of Environment.

Currently in BC, there are only two stewardship agencies that have plans approved by the Ministry of Environment. They are:

- Encorp Pacific (Canada)** – the stewardship agency for non-refillable (recyclable) glass bottles; and
- Brewers Distributor Ltd. (BDL)** – the stewardship agency for refillable glass bottles and aluminum cans.

Container Type	Description
GLASS – NO REFILL	Recyclable glass containers
BAG IN BOX	Plastic bag in cardboard box
OTHER (CERAMIC, CRYSTAL, ETC)	Non-standard containers. LDB Wholesale may request additional information about the container.
GLASS-STAND BTL-REFILL¹	BDL industry standard brown beer bottles only. Standard size is 341 ml. Generally applies to domestic beer only

PRODUCT CLOSURE

Select the product closure from the drop down list.

CANADIAN FEDERAL REQUIREMENTS FOR LABELLING AND TRACEABILITY

The agent/supplier is responsible for ensuring labels meet [Canada Food Inspection Agency rules and regulations](#) and that products are in compliance with the [Food and Drugs Act](#). You may also find information in the [Consumer Packaging and Labelling Act and Regulations guideline](#).

The agent/supplier is responsible to ensure the product can be traced to the immediate customer and back to the immediate supplier. For more information on the traceability requirements, please refer to the [Regulatory requirements: Traceability](#) published by the Canadian Food Inspection Agency.

¹ Please note, before registering your container type as a refillable glass bottle, you must provide the LDB with documentation to verify that your product is covered by BDL's refillable bottle program. This information can be emailed to the LDB Environmental Initiatives Manager.

13

ALLERGEN DECLARATION

Enter potential allergens in your product or you may select from the available options listed above the box

14

BREWERY TYPE & VOLUME (required for beer registrations only)

- Brew Pub
 - Select if you have a brew pub sales agreement with the LDB
- Micro
 - Select if annual production of brewery and affiliated breweries was less than 15,000 HL in the last calendar year
- Regional
 - Select if annual production of brewery and affiliated breweries was between 15,000 and 350,000 HL in the last calendar year
- Commercial
 - Select if annual production of brewery and affiliated breweries exceeded 350,000 HL in the last calendar year

BEER DISTRIBUTION CHANNEL (required for beer registrations only)

There are two distribution channels for beer and a supplier can only elect one channel for its packaged products. An agent may represent multiple beer suppliers, each supplier with different distribution channels.

- LDB Distribution
 - LDB distributes some or all of your packaged product
 - Distribution charge of \$0.10 per L is added to the wholesale price
 - Contact a Vendor Relations Analyst to learn how to apply for LDB distribution and waitlist information
- Private Distribution
 - An approved third party warehouse distributes all of your products

To determine which distribution channel to select for your product, please refer to the table below:

	Packaged Product	Draught Product (includes kegs, growlers, pipeline)
LDB distributes some or all of a supplier's packaged product	Choose LDB distribution	Choose PRIVATE distribution
Approved 3rd party warehouse distributes all of a supplier's products	Choose PRIVATE distribution	Choose PRIVATE distribution

If you are a BC Agent representing Canadian out of province suppliers please refer to [Domestic Out of Province Suppliers](#) for more information

15

CASE CONFIGURATION

- Item Size
 - The size in litres of a single bottle or container. For example, if the product is sold in 750ml single bottles, you would select “0.75” from the drop-down list.
- # Bottles Per Selling Unit
 - The number of containers in a selling unit. For example, if the product is sold in single bottles, you would enter the number “1” in this field. If the product is sold in a six-pack, you would enter “6”.
- # of Selling Units Per Case
 - This is the number of selling units in the **shipping case**. For example, if a shipping case contains four 6-packs, you would enter “4” in this field. If the product is sold in single bottles, and there are 12 in a shipping case, you would enter “12”. This is **not** the number of cases on a pallet.

16

PRODUCT COST

- Prime Cost/Case
 - The cost of the product per case, in Canadian dollars, including freight (land or ocean) to Vancouver
 - This is a required field.
- Domestic Charge/Case
 - This charge applies only to imported products. This is the cost incurred by the BC agent (eg. warehousing, local freight, and advertising) plus the agent profit.
 - This field is optional for imported products
- Duty Paid Cost/Case
 - The supplier price of domestic wine and beer, per case, in Canadian dollars. The supplier price typically includes product cost, duties, warehousing, freight, advertising, and supplier profit
 - You may leave this field blank for import products
- Estimated Wholesale Price
 - The estimated wholesale price, in Canadian dollars, per selling unit (eg, bottle/pack/keg) to wholesale customers. The information in this field is used for information only and is not used in calculating the actual wholesale price. The actual wholesale price is calculated using the prime cost + domestic charges entered.

For Wholesale Pricing information please contact the Wholesale Pricing team at wholesalepricing@bcldb.com

COMMENTS

- Use this space to communicate additional information about the product you are registering. Some examples of information entered here are:
 - The individual selections/SKUs contained in variety packs and their individual alcohol contents
 - Product is for a special program (e.g., Wine Festival)
 - Production process or ingredient information

ATTACHMENTS

- This section is intended for attaching packaged product labels and is mandatory. These labels will be reviewed for compliance with the LDB's Social Responsibility Criteria for Registration of Liquor Products policy. Approval of this registration does not imply compliance with the CFIA labelling standards. Subsequent changes to labels should be submitted to LDB by email to ldbprdata@bcldb.com.

SIGNING OFFICER NAME & TITLE

- The Signing Officer Name refers to the name of the individual who has been authorized by the agency or supplying company to represent and submit the registration application for this product. This is the person is responsible for the product.

PROGRAM TYPE

Program Type	Description
Speculative	New wholesale products
Commercial	CSP and special orders
Duty Free	Duty free exclusive products
Producer Agency	For domestic products only
Producer Draft	For domestic products only

CUSTOMER SPECIFIC PRODUCT

- This field is currently not in use. If you would like your product to be exclusively available to specific customers you may submit a Customer Specific Authorization Form (available on the Vendor Website, under the Resources tab).

REVIEW

- Review your application before submitting

After You Have Submitted Your Registration

Vendor Relations

ldbagentinfo@bcldb.com

604-252-8700

- LDB Vendor Relations will review your registration and may ask you to provide revised or additional information. You will need to amend and resubmit your registration within 10 business days. If you do not respond after 10 business days, your registration will be considered abandoned and it will be cancelled.
- Once the registration is approved, you will receive an approval letter which will provide the SKU number assigned to your product. Registration approval can take up to 2 weeks after submission. Ensuring that your registration is completed accurately and in full will expedite this process.

Wholesale Pricing

wholesalepricing@bcldb.com

604-252-8701

- The wholesale price will be calculated by LDB Wholesale Pricing. This may take up to 1 week.

Merchandising

604-252-8593

- The retail price will be calculated by LDB Merchandising. This may take up to 1 week.

Vendor Relations

ldbagentinfo@bcldb.com

604-252-8700

- All products registered for sale in BC must have a retail price assigned, as this is the price that hospitality customers pay for the product. After both wholesale and retail prices have been calculated, the product will be activated by LDB Vendor Relations. Once activated, wholesale customers can order this product.

Appendices

Appendix I – Wholesale Pricing Calculator

On the LDB Vendor Website Pricing Information page, scroll down until you see the Wholesale Pricing Calculator files.

Right click your mouse on the Beer Calculator and save this Excel file to your own computer. The calculators must be run from your own computer. It is also a good idea to save the User Guide that corresponds to the calculator. The User Guide will help you navigate your way around the calculator.
